Congruence Group Work

Task:

You need to produce a list of instructions so that anyone following them will construct exactly the same triangle.

You will need:

Protractor, compass, ruler, scissors, glue, pencil

Steps:

Each	person	in	the	group	is	to
				3		

Repeat for each person in your group.

	i the group is to:
	a triangle on the next page, without showing your group. In the steps that you did as clearly as you can.
•••••	
As a Group ta	ke turns to:
	ke turns to: r instructions to your group.
 Read you The other 	r instructions to your group. students in the group must follow the instructions and then draw
Read you The other your trian	r instructions to your group. students in the group must follow the instructions and then draw gle on the coloured page.
