

Give out
* 12 blocks of lego blocks.

Pretend each one
is an empty container.

won't use all for each question.

Divide in ratio

① 1:3

4 piles
3 shares

②

2:5

7 shares

③

8:3

11 shares.

* Divide money/counters in ratio

\$200 1:3

\$210 2:5

\$66 8:3

Can you see relation
betw \$ & total
shares.

Can you make up an easy/fish
question for your friend?

Does one have to be about money? Anything else?
show setting out
two ways.

1 share

Fraction:

Ex 10.04

Q1 & 2.
every 2nd.

* 3a, i, iv) c, d.

Challenge?

Rates : note of 2 different kinds
eg km/hr, \$/litre litres/hectare

World Record 100m is

Cathy Freeman did 200m in 48.52 secs. (??)

simplify. \$20 for 4 litres

4km in 40 mins

not done

Smarties Activity as per worksheet.
